REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the claims are allowable over the prior art of record because the prior art fails to show or suggest, either singly or in combination thereof, an energy absorbing device incorporated into the seat backrest, wherein the device includes an arcuate area of plastically fragmentable material that opposes the forward rotation of the seat back. Releasable retention means are provided between the relatively movable parts that allows relative rotation therebetween such that the backrest may be reclined without acting on the energy absorbing means, whereas rotation between the movable part in the other direction is subject to the energy absorbing means.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
